Goal: Revision and refinements of the reflection tool

Time: 15 mins

Task: Revision of the prior information and visualisations.
What other information would you like to add?
Is there any information would you like to get rid of?

03:54 red -> blue I can do Imani, I can do the obs and the antibiotic .
04:01 red -> blue I can do two as well, do you want to do ?
04:06 red -> relative So she's just going to go do that.
04:07 blue -> relative Yes.
04:08 red -> blue Do you want to do that, or do you want me to do it ?
04:10 blue -> red Do I?
04:12 blue -> red Is it there? The stuff ?
04:14 red -> blue Yes, yes I think it's there, it's probably there, the referral .
04:19 red -> blue And then the replacement dressing , you'll be okay ?

Questions:
How can **improve** the bar chart categories?
How can we **improve** the team positioning and communication visualisation?
What types of **explanations** would you like to have on these visualisations?

Explanation card:

This information was collected from three students.

The task transition represents the time all members spent moving from the main bed (primary task) to other beds (secondary task).

The average data (grey bars) was calculated from 21 high-performing teams composed of four members.

The team discussion represents the time all members spent talking together in a proximity space of 1 meter.

Goal: Explore a second version of the prototype

Time: 15 mins

Task: **Explore a new version of the prototype [link]**

When exploring the prototype, tell us:

- How the information presented in the prototype could help you during the debrief?
- What other information would you like to add?
- What would you change?
    - In terms of the layout?
    - In terms of the interaction?
- Would you add other visualisations to this current prototype?
